

Central PA Teamsters Health & Welfare Fund In-Network Walk-in Medical Facilities

The following is a partial list of in-network walk-in medical facilities operating in Central, Northern and Eastern Pennsylvania. The facilities treat non-life or limb threatening medical illnesses or injuries. They are an alternative to visiting a hospital emergency room when your family doctor is not available.

When a serious condition exists such as chest pain, shortness of breath, abdominal pain, persistent vomiting or multiple injuries from an accident, patients should seek care at a hospital emergency department.

The Health and Welfare Fund provides this list as a convenience to our members. We recommend you call the facility before visiting to confirm their hours, location, co-pay amounts and types of treatments available. This list will be updated periodically.
