**REQUIREMENTS FOR OBTAINING RETIRED COVERAGE:**

Effective June 1, 2012, to satisfy the 15 year requirement, you must have two (2) years of continuous coverage immediately prior to your retirement and you must have had coverage for at least thirteen (13) of the prior eighteen (18) years. For purpose of meeting the thirteen (13) year requirement, participation for a twelve (12) month period will be considered participation for a year even if the months are not consecutive.

**Special Notes:**

- When eligible, all participants and dependents must enroll in Medicare Part A and Part B. Medicare is always primary and this Plan is considered secondary.
- Transplants are only covered if the transplant was performed while the participant/dependent was covered under an active Plan.

\* The individual and Family Out-of-Pocket Maximums are balances that the participant is responsible for with respect to benefits that are paid under the provisions of the Plan. In addition to these amounts, the participant will be responsible for the payment of all Deductibles, all Copayment amounts, all benefits that exceed dollar limits as set forth in the Plan (for example, visit limits for physical therapy), and any amount billed in excess of the Fund's UCR where applicable.
